Part A (100%)

My first day at school

When I started school, I was six. I was nervous the night before! Mum helped me pack my school bag. Mum said I was a big girl and I had to be independent. The next morning, I got dressed by myself. However I couldn't do up my buttons or tie my shoelaces. I felt terrible. Mum helped me and asked me to practise later. Luckily my first day at school was great because I met two new friends.
